Executive Summary

Senior Frontend Engineer with **11+ years** at GlobalLogic, Practo, Oracle, and LG, building enterprise and consumer UI at scale. Architected a greenfield Angular platform for 1,000+ T-Mobile internal users, shipped Google Workspace Admin UI to Google's quality bar for 4+ years, and led an AngularJS to React migration at Practo. M.Tech from NIT Kurukshetra; filed patent (LG, 2015).

Professional Experience

GlobalLogic (Hitachi Group) | Senior Frontend Engineer / Tech Lead

Sep 2019 – Present | Bengaluru / Gurgaon / Noida

Served 3 enterprise clients in parallel as frontend lead:

- **Client: T-Mobile (Telecom Enterprise Platform)**
 - Architected a greenfield Angular (Material) platform from scratch - UI architecture, component library, routing, auth, and state management across 10 modules used daily by 1,000+ internal users.
 - Served as frontend point of contact for feature planning, UI feasibility reviews, and cross-functional alignment with product and backend teams.
- **Client: Google (Workspace Admin Console)**
 - Shipped frontend changes to the Google Workspace Admin console and an internal people-directory tool for 4+ years under Google's code-review and quality bar.
 - Raised test coverage to 95% and cut production defects by 50%.
- **Client: Amazon (Vega OS — Fire TV)**
 - Ported HLS and DASH adaptive-streaming players onto Vega OS for Fire TV surfaces.
 - Reduced startup latency by 25% and increased streaming reach by 10%.

Tech Stack: Angular, React, TypeScript, RxJS, Node.js, Express.js, Dash.js, HLS, MongoDB, PostgreSQL, Docker, Jest

Practo | Frontend Engineer

Dec 2017 – Sep 2019 | Bengaluru

- Led AngularJS (v1.4) to React 15 + Redux migration of hospital management software used in 100+ facilities.
- Reduced load time and bundle size by 50%; cut defects by 50%.

- Built complex, data-driven UI components shipped on a regular release cadence with product and QA.

Tech Stack: React 15/16, Redux, AngularJS, Webpack, ES6+

Oracle India | *Software Engineer*

Dec 2016 – Dec 2017 | Bengaluru

- Built and enhanced UI features for the Siebel CRM web application.
- Implemented WCAG accessibility improvements for keyboard and screen-reader users; improved usability for low-vision users.

Tech Stack: jQuery, JavaScript, HTML, CSS

LG Soft India | *Software Engineer*

Oct 2014 – Dec 2016 | Bengaluru

- Built the Glance app for LG Smart Refrigerator and the Gallery app for LG Urbane smartwatch in React and EnyoJS.
- Researched and developed an animation framework for EnyoJS.
- Filed a patent: *"Business Card Exchange through Handshake"* (LG, 2015).

Tech Stack: React, EnyoJS, JavaScript, HTML, CSS Animations

Selected Work & Projects

- **talk-to-the-dead-poc** | github.com/ankurmishra32
Next.js + Firebase + local Ollama LLM persona chat featuring streaming responses, per-user auth scoping, guided onboarding forms, and production-ready prompt engineering.
- **NodeReactWithAI** | github.com/ankurmishra32
RAG-style chat over PDF knowledge bases using Ollama embeddings and Express; features PDF ingestion, chunked embeddings, and top-k retrieval.

Education

- **M.Tech in Computer Engineering** — NIT Kurukshetra (2012 – 2014)
- **B.Tech in Computer Engineering** — Kurukshetra University (2007 – 2011)

Publications & Patents

- **Journal:** *"Intelligent Phishing Detection System using Similarity Matching Algorithms,"* Int. J. Information and Communication Technology, Vol. 12, Nos. 1/2, 2018.
- **Patent:** *"Business Card Exchange through Handshake"* (LG, 2015).
